## REENTRY SIMULATION 'THROUGH OUR LENS'

The goal of this simulation is for participants to gain an understanding of the significant obstacles faced by men and women attempting to navigate the system upon their release from incarceration and returning home to their communities. To walk in the shoes of one who is returning home gives invaluable insight for professionals who are tasked with helping those individuals achieve a successful reentry.

The Reentry Simulation highlights the struggles and challenges faced by individuals who are transitioning into society from incarceration.

Over the course of two days participants experience the first month of post-release life.

SIMULATIONS CAN ACCOMMODATE UP TO 60 PARTICIPANTS.
